***** If you feel you received exemplary care from our staff today, PLEASE ask our front desk staff on the way out about our ICE and DAISY Recognition programs! *****

Edinburgh Postnatal Depression Scale (EPDS)

Since you are either pregnant or have recently had a baby, we want to know how you feel. Please place a **CHECK MARK (✓)** on the blank by the answer that comes closest to how you have felt **IN THE PAST 7 DAYS**—*not just how you feel today*. Complete all 10 items and find your score by adding each number that appears in parentheses (#) by your checked answer. This is a screening test; not a medical diagnosis. If something doesn't seem right, *call your health care provider regardless of your score*.

Below is an example already completed.

I have felt happy:
Yes, all of the time _____ (0)
Yes, most of the time ✓ (1)
No, not very often _____ (2)
No, not at all _____ (3)

Yes, most of the time _____ (3)
Yes, quite often _____ (2)
Only occasionally _____ (1)
No, never _____ (0)
10. The thought of harming myself has occurred to me: *
Yes, quite often _____ (3)
Sometimes _____ (2)
Hardly ever _____ (1)
Never _____ (0)

TOTAL YOUR SCORE HERE ►

Regardless of your score, if you have concerns about depression or anxiety, please contact your health care provider.

Please note: The Edinburgh Postnatal Depression Scale (EPDS) is a screening tool that does not diagnose postpartum depression (PPD) or anxiety.

(Below for Office Staff)

Weight: _____ kg

Respiratory Rate: _____ breaths/min

Length: _____ cm

O2 sat (if indicated): _____

Head Circumference: _____ cm

Temperature: _____

Heart Rate: _____ bpm

(Temporal, oral, tympanic, axillary, rectal)

Important Notes from Corpsmen to Provider:

PARENT HANDOUT

2 Week Health Supervision

Your child's growth:

Weight: _____ lb. Percentile: _____

Height: _____ in. Percentile: _____

Head Circumference: _____ cm. Percentile: _____

Parental Well-Being

- Taking care of yourself helps you take care of your baby.
- Remember to go for your postpartum checkup.
- Call for help if you feel sad or blue

Infant adjustment

- Put baby to sleep on their back in a crib or bassinet.
- Encourage tummy time--put your baby on their tummy when awake and you are there to watch.
- Crying is normal and may increase when your baby is 6-8 weeks old.
- When your baby is crying, comfort them by talking, patting, stroking, and rocking.
- *Never shake your baby.*
- If you feel upset, put your baby in a safe place; call for help.

Safety

- Use a rear-facing car safety seat in all vehicles.
- Never put your baby in the front seat of a vehicle with a passenger air bag.
- Keep your car and home smoke free.
- Keep hanging cords or strings away from your baby.
- Keep a hand on your baby when changing clothes or the diaper to prevent falls.

Feeding

- Feed your baby only breastmilk or iron-fortified formula in the first 4-6 months of life.
- Breastfeed or bottle-feed 8-12 times per day.
- Feed your baby when you see signs of hunger, such as putting hand in mouth or sucking, rooting or fussing.
- End feeding when you see signs your baby is full, such as turning away, closing the mouth, or relaxed arms and hands.

Medications: Saline nasal spray/drops as needed: No acetaminophen (Tylenol) until after 2 months of age.

Next health supervision appointment: 1 month of age.

REASONS TO GO TO THE ER OR CALL 911:

- Rectal temperature greater than 100.4°F or 38°C
- Made less than 4 urine diapers in 24 hour period
- Significant change in behavior (not sleeping, not waking up, inconsolable crying)
- Green or bloody vomit; bloody stools

Patient specific guidance:

Create a MHS Genesis Patient Portal Account

1. Scan QR Code with camera
2. Go to website
3. Sign Self-Service Consent
4. Click "Need an Account"
5. Complete the registration process
